U. S. Rt. No. 30

Est. 1921

MOUNTVILLE, PA.

LANCASTER COUNTY

SPRING-FALL

List No. 16

• CUT FLOWER and ROCKERY PERENNIALS •

AFTER SNOW, SLEET AND ICE COMES SPRING AND BEAUTIFUL FLOWERS

SUN GOLD (Rich Gold)

LARGE EXHIBITION CHRYSANTHEMUMS

Can be grown successfully outdoors. The plants should be set out throughout June or early July in rich, well fertilized soil, spaced about 8 inches either way in rows or beds. When the plants start growing and have reached about 10 inches they should be given stakes so that three feet of the stake is out of the ground. Tie the plants up early therefore avoid weak and crooked stems. When the buds appear break out all but one or two. Keep all succors and other shoots off. Feed the plants moderately every week until the selected buds start to swell.

HARDY CUT FLOWER AND ROCKERY PLANTS

The interest in gardening has vastly increased in late years, the hardy perennial herbaceous plants are coming into their own. The "Old Fashioned Garden" reminiscent of "Grandmother" and her times has been a commercial slogan and a garden fad for the past decade. Plant producers have enriched the available lists of material by incursions into other climes and distant lands seeking rare and unknown species and improving those types already known.

Through careful study the nurseries have learned to provide groups of plants for hot and dry locations, a different collection for shade and dampness, providing a variety of edging subjects so that artistically balanced color and blooming season in any location may be had. Many "Back yards" have been changed from a place for storing rubbish into a place of beauty by planting hardy perennials. Planting can be started in spring and fall.

Hardy Plant, Continued on Page 2

CHRYSANTHEMUMS

CULTURAL NOTES

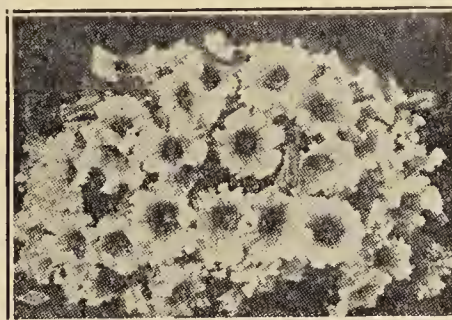

START RIGHT by obtaining clean stock. It is not hard to keep such plants clean and healthy by following simple rules.

NEVER PLANT discarded greenhouse stock, which has been highly fed and forced (most Florists throw out such plants and buy new stock from the plant specialists).

WE GROW our stock plants in the field and greenhouse with special care under proper conditions for propagating. All plants are grown cool and kept clean. A visit here will convince you of this, visitors are always welcome. We invite inspection.

SOIL. Never plant on poorly drained soil. Although the Chrysanthemum likes moisture it does not like wet feet. Most any other type of soil will grow them well. Heavy clay soil produces splendid results. Loosen the soil by cultivation several times after planting and mulch when plants start new growth, using manure, grass-clippings and best of all tobacco stems. Mulching prevents rapid evaporation of moisture, feeds the plants and keeps down insect pests.

NEW PETUNIA
"MARTHA WASHINGTON"

Beauty Marks New Petunia

Ruffled mammoth Compacta.
"Martha Washington"

A new break in Petunias. Martha Washington is a ruffled or frilled, dwarf, compact grower, about 9 inches high. Forms a perfect ball, literally smothered with lovely frilled blooms about three inches in diameter. Its neat compact habit has never before been seen in

NEW YORK BUTTON

PACHYSANDRA

Japanese Spurge

Most Satisfactory Evergreen
Ground Cover

Pachysandra is recognized as the hardiest, quick growing, dense covering that we can establish in dense shade, under trees and shrubbery and other unsightly, shaded places where it is impossible to grow grass. It quickly adapts itself to the conditions under which grass will not grow. Quickly forming a thick mat of clean, green foliage about 8 inches high. Plants should be set 6x6 inches apart for quick, dense coverage.

Thrifty one year plants, 25 for \$1.00—100 plants, \$3.00; 500 plants, \$13.50; 1000 plants, \$25.00.

Azalea Flowered Chrysanthemum

PINK CUSHION—A descriptive name. A 30-inch rounded mound of beauty, from July into October. The earliest pink 'Mum to bloom, with countless rosy buds and 2-inch opened flowers. A broad, low mound completely covered by its captivating flower clusters of tender lilac, blush and ivory white.

30c each—3 for 75c; 7 for \$1.50.

See Page 5 for other Chrysanthemums

SWEET WIEVELSFIELD

Few flowers have richer colors or a longer blooming period than this new race of pinks.

TRITOMA

OLD-FASHIONED GARDENS
SELECTED
GIANT GAILLARDIAS

This mixture contains most unusual colors of exceptionally large flowers born on strong, stiff stems. Colors: Lt. yellow; gold; Indian red in plain and fluted types.

PHLOX, Sublata—continued

P. Lilacina. Lt. Blue.

BEGONIAS

Bed of bright colored flowers may be had in shaded and semi-shaded places by using **BEGONIAS**. Sempifloren and Tuberous sorts, which may be had in many shades and colors. Impatiens may be used where taller growth is desired. Time and experience have proven the following: varieties most adaptable for bedding in shade. The north side of a house or under or north of trees, the plants will give endless amount of blooms throughout the summer provided you give them a good rich soil. Try some of them in those beds that have not grown successfully Petunias, Verbenas, and other annual flowers, I know you will be more than pleased with the results.

TUBEROUS ROOTED BEGONIAS

Unexcelled for summer bedding, for lawns, beds and borders; flowering until frost when the bulbs may be dug and stored for the winter. If you have never tried a bed of them in shade or the north side of a house you still have a treat in store.

SUNSET, Frilled, large bright orange.

SNOWBIRD, Crested, glistening white.

SUNRISE, Frilled, large, bright rosy pink.

RED CHIEF, Large, bold, bright red. Crested. 1½ to 2" bulbs 25c each—6 for \$1.25.

EVERBLOOMING BEGONIAS

CARMEN "NEW" Bright rose colored flowers in lovely contrast to the beautiful bronzy-red foliage. Pot Plants 15c each 2 for 25c—5 for 50c—25 for \$2.00.

LUMINOSA COMPACTA: Masses of bright-scarlet red flowers on bronzy-red foliage. Pot Plants 15c each—2 for 25c—5 for 50c—25 for \$2.00

PETUNIAS

Continued from Page 1

Petunias. The color is remarkable. The frilled portion of the flower is a beautiful Blush Pink, the center is strongly veined a rich wine-red, deepening in the throat to a dark violet. Suitable for borders, bedding, pots or window boxes. **A. R. S. plants 25c per doz.—5 doz. \$1.00.**

LACE VEIL: Large fringed, dwarf petunia pure white with delicate cream throat. **A. R. S. plants 25c per dozen—5 doz. \$1.00.**

SETTING SUN: Large fringed, dwarf petunia of brilliant rose pink with contrasting white throat. **A. R. S. plants 25c doz.—5 doz. \$1.00.**

FLAMING VELVET: "NEW" large flowering bedding petunia. A deep velvety mahogany red. **A. R. S. plants 25c per doz.—5 doz. \$1.00.**

CELESTIAL ROSE: Dwarf, compact variety for all purposes. Vivid rose with white throat. Very free flowering. **A. R. S. plants 20c per doz.—7 doz. \$1.00.**

PINK GEM: Small pink flowers literally cover the miniature compact plants, which average 6" in height. **A. R. S. plants 20c per doz.—3 doz. 50c—7 doz. \$1.00.**

ROSE OF HEAVEN: Dwarf compact, brilliant rose with light throat. Very bright and showy. **A. R. S. plants 20c per doz.—3 doz. 50c—7 doz. \$1.00.**

MARINE BLUE: The finest blue petunia in this class. A rich clear ultra-marine blue, free from any purplish cast or pink tint. Abundance of flowers on strong well branched plants. **A. R. S. plants 20c per doz.—3 doz. 50c—7 doz. \$1.00.**

ZINNIAS

Giant Dahlia Flowered Mixture:

The ever increasing demand for special color mixtures has prompted me to grow these charming colors composed of lovely shades of pink, yellow and lavender; which blend in the most harmonious manner and give a bed or border of an unusually artistic effect, besides supplying many fine flowers for cutting. **A. R. S. plants 25c per doz.—5 doz. \$1.00.**

LILLIPUT

Baby or Pompon Zinnias

The Lilliput Zinnia is the most appealing, dwarf, branching, flowering plant. It grows 12 to 18 inches tall forming a sturdy, bushy plant, literally covered with exquisite double, pompon flowers 1 to 1½ inches across. Ideal for border, beds and table decorations. Many colors and shades mixed. **20c per doz.—3 doz. 50c—7 doz. \$1.00.**

GLOXINIAS

BEAUTIFUL GLOXINIAS

These showy plants are easily grown in pots for summer or winter bloom. They make a glorious display of blooms over a long period. The bulbs may be kept from year to year increasing in size and strength. Colors: Lt. Blue, Purple, Pink, Red, White, with pretty mottled throats. **2 yr. bulbs 20c each—3 for 50c—7 for \$1.00.**

VERBENAS

BEAUTY OF OXFORD: A giant bedding sort of the brightest, clear rose pink to rose red. Free flowering, sturdy growth.

LAVENDER GLORY: Fragrant. Pure lavender, with creamy white eye. One of the loveliest colors.

FORDHOOK'S FAMOUS MIXED COLORS. Elegant, well rounded flower trusses in a variety of colors, very free blooming. 8 to 12 inches. **A. R. S. Plants 25c doz.—5 doz. \$1.00.**

VALUABLE GROUND COVER PLANTS

Many gardeners are troubled with finding suitable plants to cover unsightly, shady spots on lawns and gardens as well as for dry sunny banks. The following plants will be found ideal for such a purpose and should be planted 6x6 inches apart to insure quick, dense coverage.

Variety	Per Doz.	Per 100
SEDUM ACRE , Golden Moss; for sun	\$1.00	\$6.00
PACHYSANDRA , Jap. Spurge; for shade60	3.00
IVY , Broad leaf, Hardy, English; for shade	1.00	7.00
COPTIS TRIFOLIA , Gold Threads, 4"; shade	1.00	6.00
AJUGA , Genevensis. Dark leaves, blue flrs. shade ...	1.20	7.00
MAZUS , Reptans. Purple flrs. 4". Flagstones	1.20	7.00
VERONICA , Rupestris, Lt. Blue flrs. 3-4" Flagstones	1.20	7.00
VINCA , Trailing Myrtle. Blue flrs.; shade	1.20	7.00
IMPATIENS , Salmon, Pink and Red flrs. shade beds	1.20	7.00
BEGONIAS , Semperflorens and Tuberous rooted (for prices see general list) Shady beds.		

EXCEPTIONAL PLANT VALUES IN GROUPS

The following offers of plant stock cannot be split; must be taken in groups as offered. For other quantities see general list.

Any 3 Dollar collections, \$2.75

Any 6 Dollar collections, \$5.00

For banks and shade. 1 yr. plants; ground cover.

CHRYSANTHEMUMS

EVERY garden has room for some of Autumn's brightest flowers. In the border by a fence or building, a well planned and cared for bed repays itself with the gorgeous array of colors it will furnish in Autumn. Tiny buttons, medium buttons, Singles, Balls, Pompons, Shaggy ones and the large globes of gold; bronze; reds; pinks; yellows and many intermediate shades. Try a bed of a hundred or more and experience the thrill, and pride of showing your friends and neighbors your skill as a grower of Autumn Queen Chrysanthemums. Cut some blooms for friends who are shut in or decorate your church.

CULTURAL NOTES

Continued from Page 1

LOCATION AND SPACING. Plants may be set singly in hardy borders or beds with other flowers, allowing about 2 feet of room for the Hardy Varieties to naturalize and spread. In garden beds when planted alone 8 to 10 inches is plenty of room. For the ideal results I recommend the Chrysanthemum Bed with at least an 18-inch path through the middle of the bed. Beds may be made as long as necessary to accommodate the desired amount of plants. Each bed may contain six rows of plants in rows 6 inches apart and the plants set 8 inches on the row. This plan enables us to give plants special care in staking, disbudding, etc.

WITH THE APPROACH OF EARLY FROSTS, a frame may be built over the foregoing described beds strong enough to carry a covering of Cello Glass, Muslin or Burlap. Such improvised frames enable us to lengthen the Chrysanthemum season until after Thanksgiving.

ABBREVIATIONS USED FOR DESCRIPTIONS:

A. R. S., Advanced Root System: The Plants we send have been sand rooted and then grown in soil, making a far better, healthier growing plant than those that become hardened by pot growing. Plants thus handled start growth easier and bloom better. S.—Short. M.—Medium. T.—Tall. E.—Early. XE.—Extra early. MS.—Midseason. L.—Late. (*) Suitable for pot plants.

POT PLANT CHRYSANTHEMUM
CAPRICE

The chrysanthemums marked (*) as well as others may be successfully grown in 5 or 6 inch pots. In order to have them low and bushy they will need frequent pinching up until a few weeks before the buds appear. Pinch out the new growth allowing but one set of leaves above the recently formed crotch. After pinching new growth will start when again it shall be pinched in the same way, this method will keep the plants low and bushy. Pinching shall start when the plants are about 8 inches tall.

Chrysanthemums—New Korean

25c EACH **6 FOR \$1.25**

APOLLO. A sparkling combination of bronze, red, and gold, suffused with glowing salmon. The single flowers 2" across, are produced in immense sprays, height 2½ ft. Blooms October 12th.

DAPHNE. An exquisite blending of Daphne-pink with an underlying sheen of lilac-rose, enhanced with prominent golden stamens in the center. Height 2 ft. Blooms October 12th.

CERES. A lovely combination of old gold, chamoise yellow and soft coppery bronze. The mature flowers appear as if dusted with gold. Height 2 ft. Blooms October 10th.

DIANA. Chantenay—rose-pink mingled with lilac-rose and of soft salmon, the tones of which vary with the degree of light, the triple rays of petals give an appearance of fullness. Height 2 ft. Blooms October 10th.

MARS. Deep Amaranth-red, changing to wine-red, overlaid with a velvety sheen. Height 2 ft. Blooms October 15th.

MERCURY. Single flowers, open bronze-red and changing to coppery-bronze, as they mature. Height 2 ft. Blooms September 30th.

ASTERS. Hardy New, Dwarf

LADY H. MADDOCKS. Clear pale pink flowers. Very free flowering and dwarf compact habit. Blooms Sept. 1st. 20c each—3 for 50c—7 for \$1.00.

SNOW SPRIT. A very dwarf early fall flowering variety, forming perfect clumps, these are smothered with large semi-double flowers. Blooms early Sept. Height 1 ft. 20c each—3 for 50c—7 for \$1.00.

VICTOR. The dwarfest of all, very pretty. The flowers are of good size and of beautiful pale lavender blue. A charming rock plant. Flowering early Sept. 8 inches. 20c each—3 for 50c—7 for \$1.00.

VIOLETS, Hardy

VIOLA ROSINA. Exquisitely fragrant. Rich, rosey-pink flowers. It is entirely different from other violets. In spring a mass of pink flowers appear before the foliage. Blooming freely again in the fall. Does well in sandy positions and semi-shade. Grows 8 inches, easily forced in cold frames. 15c each—2 for 25c—5 for 50c.

Plant Food

Chrysanthemum and other flowering plants are gross feeders, they all like a well drained, rich soil that has had an application of stable manure. While stable manure is becoming harder to get we have sought other sources of fertility. After trying a number of so-called commercial fertilizers we now use one known as 4-6-6 V. C. formula. We use it freely on any type of plant and find it especially good for feeding chrysanthemums applying it between the rows in dry form weekly until the buds appear. It makes a healthy, green, thriving plant and puts color into the bloom. It is economical and does not burn the plants. We are able to furnish some of this fertilizer from our regular source. 10 lbs. 40c—50 lbs. \$1.75—a bag 100 lbs. \$3.00 via freight or express collect.

GUARANTEE:

Every item I offer is guaranteed to be as represented in this list, and to reach you in healthy, growing condition. I will replace any plants that fail to grow, when reported within twenty (20) days or refund your money you have paid on any item you are not satisfied with upon your returning same. At no time do I assume responsibility for more than purchased price. This list cancels all previous offers.

NOTE: If when filling order we do not have the size clumps or pot plants you have ordered, we will (if on hand) send larger sizes at no increased cost. Also, when smaller sizes are (only) on hand we will make up the difference in quantity or refund the difference.

(T E A R O F F H E R E)

Order early, thereby avoid disappointment of certain varieties being sold out.

TESTIMONIALS

From Freehold, N. J.:

Plants rec'd yesterday (Thursday) in good condition and nice plants. Thank you very much.

Very truly,
(MRS.) ELIZABETH M. BUFFETT.

Dear Sir:—

Having received the Japanese Garden Set and being satisfied I wish you would send one to each of the following (2 addresses given).

Mr. W. W. ———, 17 Dwight St., Brooklyn, N. Y.

Dear Sir:—

Wish to thank you for the wonderful plants you have sent me. Of all the plants I have purchased from other growers, your plants by far surpass the others in size, vigor and condition received in.

Enclosed find money order for the following new order:

MARIGOLD

Dwarf, doubled, French. Robert Buist.

Attractive double flowers of a deep rich mahogany-red. Grows 12 inches and very bushy. A. R. S. plants 20c per doz.—3 doz. 50c—7 doz. \$1.00.

SALVIA OR SCARLET SAGE

BONDFIRE: Scarlet red of erect globular growth, smothered with bright flowers. A. R. S. plants 25c per doz.—5 doz. \$1.00.

LOBELIAS

For Borders or Baskets

Shades of blue flowers on 4 to 6 inch plants. Pot plants 15c each—2 for 25c—5 for 50c—25 for \$2.00.

COSMOS, KLONDIKE

ORANGE FLARE. A lovely vivid orange variety, starts blooming nearly two months earlier than other sorts and continues blooming until frost. A. R. S. plants 25c per doz.—5 doz. \$1.00.

ANNUAL PHLOX DRUMMONDII

Dwarf, compact bedding Phlox

For low bed and borders where plants growing 5 and 6 inches tall are wanted, they bloom freely throughout the summer and fall, with blooms almost as large as those of the tall Phlox. A. R. S. plants 25c per doz.—3 doz. 50c—7 doz. \$1.00.

CANNA, THE PRESIDENT

Most satisfactory dwarf with green foliage and red flowers. 15c each—2 for 25c—5 for 50c.

HARDY BEGONIA EVANSIANA

JEWEL. This is a tuberous herbaceous, hardy perennial begonia losing its tops in the fall. When bedded out the roots remain in the soil and start new growth in the spring just as do peonies and perennial phlox. 15c each—2 for 25c—5 for 50c.
